

2016 HERNANDO FARMERS MARKET VENDOR APPLICATION

Hernando Farmers Market is proud to be among nine farmers markets participating in a national research project called Farmers Market Metrics. This project is designed to help farmers markets understand and communicate their impacts. As partners in this effort, we are hoping to collect information that helps us understand more about your business, which, in turn, will help us to better support your operations.

In this updated 2016 application, and at intervals throughout the season, you will be asked to complete some very brief surveys on a small number of topics, including:

- Total farm acres and acres cultivated or grazed
- Gross sales at market
- Total number of crops and varieties offered for sale
- Pounds or retail value of products donated to gleaning organizations

Any information you provide is confidential and will be compiled into aggregate statistics. No individual business information will be released without written consent from the owner. Please respond to the following questions regarding the business currently applying to participate in the Williamsburg Farmers Market.

This pilot phase of Farmers Market Metrics is a joint project between the Farmers Market Coalition and the University of Wisconsin. You can learn more about the Farmers Market Metrics Project at www.farmersmarketcoalition.org/farmers-market-metrics.
