BACKGROUND:

The Future Land Use Map for the City's currently adopted General Development Plan identifies the subject property in the "Residential - Single Family, Low Density" land use designation, which has a variety of sub-sets. The full description of this land use category is included in your staff report.

DISCUSSION:

Article **XVIII** Amendments of the City of Hernando Zoning Ordinance allows for the amendment of the text or map of the Zoning Ordinance provided the applicant demonstrates the appropriateness of the change and addresses the following criteria for the zoning amendment.

1. How the proposed amendment would conform to the General Development Plan.

<u>Applicant Response:</u> There are currently several new infill projects taking place in the immediate area.

2. Why the existing zoning district classification of the property in question is inappropriate or improper.

<u>Applicant Response:</u> The zoning is currently R12 and there are similar properties in the area that wouldn't conform with current R12 zoning restrictions.

3. That major economic, physical, or social changes, if any, have occurred in the vicinity of the property in question that were not anticipated by the General Development Plan and have substantially altered the basic character of the area, which make the proposed amendment to the Zoning District Map appropriate.

<u>Applicant Response:</u> This location has a great mixture of real estate surrounding it with historic homes from 1000sqft-5000sqft in size, duplexes directly across the street from the subject property and some great new construction projects to the north and south of this location.

PRELIMINARY DEVELOPMENT PLAN

The applicant's proposal is to allow for the development of a single building, containing 3 units. 6 parking spaces are provided on the east end of the site, which satisfies the required parking. Preliminary building elevations have been provided, but full review will occur when permitting is requested.

The proposed development will have access to City water and sanitary sewer services. If approved, the preliminary text submitted will serve as the preliminary plat approval. Any subdivision of the property will be required to follow applicable regulations concerning engineering and plat procedures.

BOARD OFALDERMEN STAFF REPORT

Project No.: PL-1782

Request: Zoning Map Amendment/Preliminary Development Plan Approval - Holly Springs

and Getwell C4

Location: The subject property is located on the south side of Holly Springs Road, west of

Getwell Road in Sections 21, Township 3, and Range 7

Applicant: Shane King, with Houston Engineering, representing the applicant

Date: March 5th, 2024

INTRODUCTION:

Shane King with Houston Engineering, representing the owner of the property, is requesting a rezoning and preliminary development plan approval to rezone 2 acres from A to C-4 Planned Commercial. The subject property is located on the south side of Holly Springs Road, east of McIngvale Road, in Section 21, Township 3, Range 7

BACKGROUND:

The Future Land Use Map for the City's currently adopted General Development Plan identifies the subject property in the "master planned residential" land use designation, which has a variety of sub-sets.

The Master Planned Residential designation is intended to give the developer the ability to be flexible and creative for development of a residential project, while at the same time give the City adequate control over the design and impact of the project. The MPR designation allows the developer and the City the opportunity for a well integrated design that is responsive to the unique locational and physical features of a site.

This category is to provide for modern, attractive, and efficient retail, personal, and professional commercial facilities with access needs that demand location along major arterial roadways. This category strives for the highest quality private-and public-sector development. This includes nodes at interchanges along the 1-69/Highway 304 corridor. It does not allow distribution centers. The full description of this land use category is included in your staff report.

This application was tabled at last month's meeting to give the applicant time to discuss with a concerned citizen. The applicant has agreed to edit the proposed uses and update the landscape plan, as shown in the proposal.

DISCUSSION:

Article XVIII Amendments of the City of Hernando Zoning Ordinance allows for the amendment of the text or map of the Zoning Ordinance provided the applicant demonstrates the appropriateness of the change and addresses the following criteria for the zoning amendment.

1. How the proposed amendment would conform to the General Development Plan.

Applicant Response: see attached text

2. Why the existing zoning district classification of the property in question is inappropriate or improper.

Applicant Response: see attached text

3. That major economic, physical, or social changes, if any, have occurred in the vicinity of the property in question that were not anticipated by the General Development Plan and have substantially altered the basic character of the area, which make the proposed amendment to the Zoning District Map appropriate.

Applicant Response: see attached text

PRELIMINARY DEVELOPMENT PLAN

The applicant is requesting to rezone 2 acres from A to C-4 Planned Commercial to allow for a convenience store, as shown on the attached proposal. The applicant proposes a variety of uses, but the approval is based on the attached rendering and site plan, which serves as a preliminary development plan.

The proposed development will have access to City water and sanitary sewer services. If approved, the preliminary text submitted will serve as the preliminary plat approval. Any subdivision of the property will be required to follow applicable regulations concerning engineering and plat procedures, to include all road improvements required by current regulations.

STAFF COMMENTS:

1. The Planning Commission has recommended to approve this application as presented.
